Order no. S0038468

Tag no. None

We certify herewith that the DynIce products described in this certificate are produced as stated in the DynIce Quality Manual. The products have been thoroughly inspected and this delivery is in accordance with the order specification as documented in our files.

Type	Dia.	Braid type	Length	Quantity	Coil number	Rope MBL unspliced
	mm	strands	m	pcs	no.	ton
DynIce Towing	48	2 x 12	180 mtr - 48mm DynIce Towing line (D1). Both ends spliced 2 mtr eyes with DynIce eye protection	1	15896	192
DynIce Towing	40	2 x 12	15 mtr - 40mm DynIce Towing Pennant (A1). With 2mtr DynIce covered eye on one end and 1mtr DynIce covered eye on the other end	1	15895	140

The DynIce rope is solely made from UHMW-PE Dyneema SK75 multifilament's, and the cover is made from Dyneema SK62.

It is necessary to evaluate the working circumstances and the condition of the rope before applicable SWL is determined. Please refer to the Cordage Manufactures Institutes booklet/code of practice Lifting Tackle and Eurocord's Recommendations for Rope Safety. It is important to regularly inspect this equipment for signs of damage which may lead to failure. Incorrect use of this item may be dangerous.
